What is provided in the property?

Combination oven/microwave, small hob & fridge with ice box are included as a minimum standard, larger apartments have additional appliances such as full size fridge freezers, full size ovens/hobs, extractor fans, dish washers & washing machines. For exact specification and furniture for individual properties please contact us or see your check-in inventory.

If your appliances are not working

PLEASE MAKE SURE THESE ARE TURNED ON!

Extractor Systems/Ventilation

All apartments have an extraction/ventilation system. The original fitted system works by automatically extracting air when the kitchen or bathroom light is switched on. Apartments that have recently been fitted with a new one, work slightly differently: they have a constant trickle vent that is extracting air 24/7 at a very low wattage, increasing to a higher rate/boost when the kitchen or bathroom light is switched on. Both systems continue for a very short while to ensure maximum extraction once the lights have been turned off.

Please ensure you do not turn the extraction fused spur off at all, or you could experience damp/mould paint peel in the bathrooms as there is no natural ventilation.
